

**TENNESSEE GENERAL ASSEMBLY
FISCAL REVIEW COMMITTEE**

FISCAL NOTE

SB 2689 - HB 2800

February 23, 2010

SUMMARY OF BILL: Requires test, for purposes of determining the alcohol or drug content of a driver's blood when such driver was involved in an accident and the law enforcement officer has reason to believe the driver was driving under the influence (DUI), to be conducted within two hours of the accident.

ESTIMATED FISCAL IMPACT:

Increase State Expenditures – Not Significant

Increase Local Expenditures – Not Significant

Assumptions:

- Currently law enforcement officers are required to perform alcohol and drug tests when an individual is involved in an accident and is believed to be DUI. Requiring the test to be performed within two hours of the accident will result in a not significant increase in state and local expenditures.
- Any cost can be accommodated within existing resources without an increased appropriation or reduced reversion.

CERTIFICATION:

The information contained herein is true and correct to the best of my knowledge.

A handwritten signature in cursive script, reading "James W. White".
